

Memorandum

To: Chris Thomas, City Manager

From: Jessica Frye, Finance Director

Date: October 28, 2014

Subject: Telecommunication Services

The City received two proposals for consolidated telecom services for City Hall, IH Clubhouse, and the Senior Center. We currently have service with both AT&T and Comcast, but the staff felt it would be more efficient to consolidate all services with one provider to save money by "bundling." The proposals support that theory. Please see below.
